

Worksheet 2:

Lesson Assessment

1. Where is water found on the Earth's surface?
2. How does the water cycle work? (Create a diagram, if you prefer.)
3. In what forms is water stored on the Earth's surface?
4. How much of the Earth's water is available for human use?
5. How do humans use fresh water?
6. What else did I learn about fresh water as a limited resource?
