

Worksheet 2:**Summary of calculations for daily and weekly water use**

³ Activity	Volume of single use (gallons)	Number of use/day	Total volume/day (gallons) (Eqn 1)	Total volume/week (gallons) (Eqn 2)
Example: Flush toilet (standard flow)	3.5	5	$3.5 \times 5 = 17.5$	$3.5 \times 5 \times 7 = 122.5$
Wash face or hand	1			
Shower (standard)	50			
Shower (low flow)	25			
Bath	40			
Brush teeth (water running)	2			
Brush teeth (water turned off)	0.25			
Flush toilet (standard flow)	3.5			
Flush toilet (low flow)	1.5			
Shaving	2			
Getting a drink	0.25			
Cook a meal	3			
Wash dishes by hand	10			
Run dishwasher	15			
Laundry (one load)	30			
Water lawn	300			
Wash car	50
